B O D Y & M I N D

At Ideal Standard we believe creativity is the catalyst to constant evolution of sanitary ware.

Design and **Technology** join perfectly in order to make your dreams reality, to create your own style, to fully express your personality in your bathroom space, that is so fundamental in regenerating body and soul every day.

The extraordinary know-how of the trademark allows for perfect integration of innovative materials thus creating **unique products** so much as wonderful as functional.

The discovery of the new integrated approach combined with the use of valuable materials, gives you the maximum of **emotion** and **pleasure**.

B O D Y & M I N D

Ideal Standard means transforming a bathroom to a special place where it is possible to find in every corner and in every detail the greatest quality both functional and aesthetic.

For these reasons Ideal Standard can propose you an incomparable offer of vastness and completeness, for technological level and for care in design. You will again find these characteristics in our sanitary fixtures, in the basins, in the mixers and obviously in the furniture. By choosing between many lines available in this catalogue, it will be possible for you to personalize your environment because our products suit every kind of bathroom, especially yours.

Ideal Standard, every choice is the right one.

Moreover, you will always find all the quality of Ideal Standard in its wide and complete range of

Wellness products: bathtubs and modern showers, conceived for regeneration to give your body and your mind the best care, the only one they deserve.

Emirama

Comfort. Wider dimensions.

Emirama collection, designed by Axel Enthoven, offers design that incorporates wider dimensions, for added user comfort and convenience. Emirama collection is designed for function and style, offering extra-wide basin areas as well as a design-matched back-splash, for better water protection and design-intergraded soap dishes to give you added convenience

without sacrificing styling. Luxury styling with all the performance extras.

Esedra

Spacious. High standard of styling.

Esedra, by Franco Bertoli, is exceptionally designed to offer a high standard of styling combined with a performance level traditionally associated with the successful lines of Ideal Standard's sanitary products. This line is characterized by spacious openings that are bordered by modern, softly curved rims. A recessed fittings zone is incorporated into the design to prevent water from exiting the drain areas.

You'll find this line easy to clean and comfortable to use, yet measured to fit a variety of installations. Add a wonderful element of design to your bathroom with Esedra.

Manta

A "French" taste design.

Manta collection offers a unique combination of classic and modern European styling. The gracefulness of the smooth and modern curves is accentuated by the use of classic lines and angles. The design emphasis goes beyond aesthetic quality incorporating geometry that is born easy to clean and comfortable to use.

The angular aspect of the design, prevents water from escaping the wet areas and the broad curves provide comfort and ease of cleaning. At Ideal Standard, we know what you have come to expect in design, quality and product value.

Newson Imposing size with smoothly rounded edges.

This bathroom series, by internationally acclaimed designer Marc Newson, will capture those who enjoy original and innovative designs. Its forms reflect Newson's origins as a sculptor. All these vitreous china products have imposing dimensions, yet their soft rounded edges create an extremely delicate and harmonious composition.

The Newson range, also, includes the award winning freestanding island bath and built-in bathtubs, as well as a complete range of mixer and tap fittings designed to compliment the porcelain.

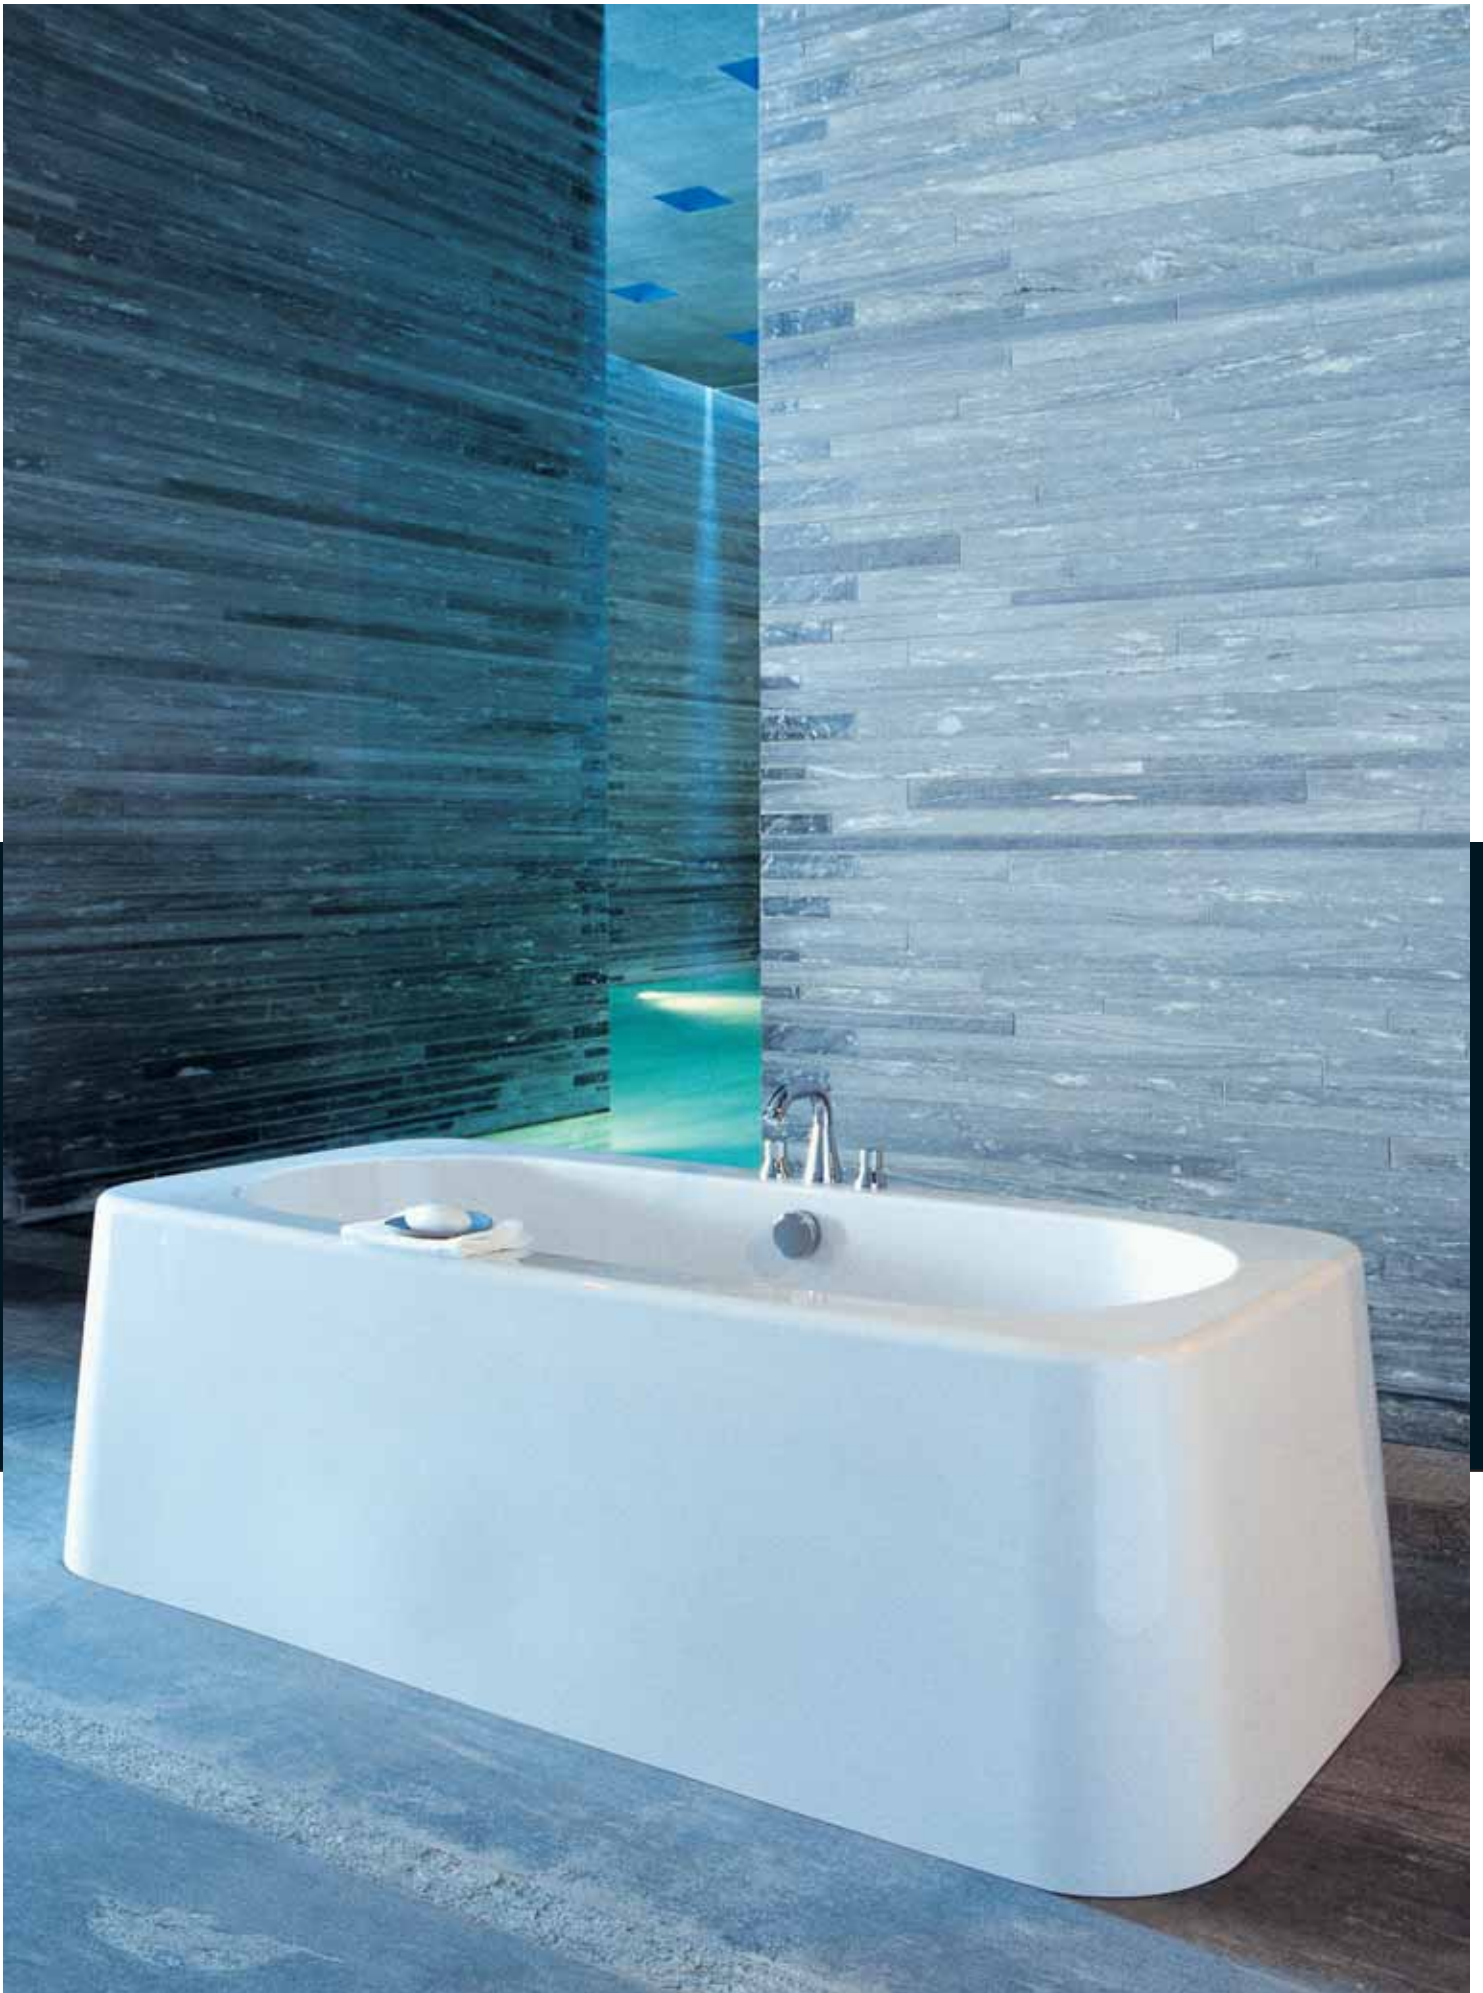

Marc Newson

Wall mounted WC bowl and bidet with Newson dual handle bidet mixer, low spout. Semi pedestal wash basin with Newson dual control basin mixer, high spout, mirror and bathroom accessories.

98 Ideal Standard

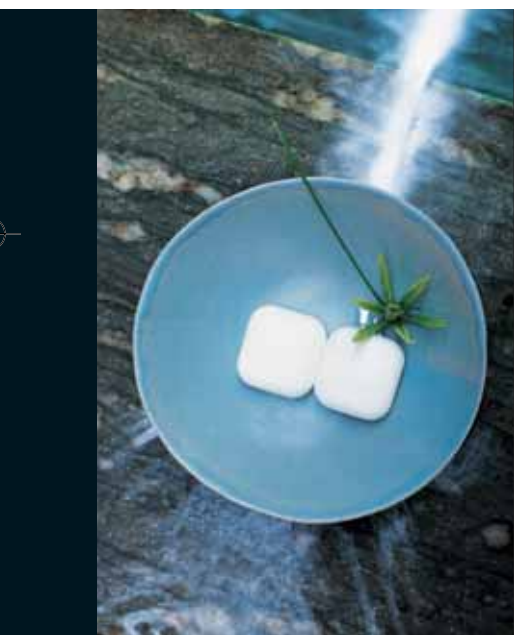

The Newson collection, created from deep white blocks of porcelain and metalware engineered to the highest standard, reflects the designers stunning aesthetic vision and uncompromising originality.

Marc Newson

Moments

Your pool of tranquility.

The new Moments range form has been designed for those with a definite sense of style. Conceived by German design studio Artefakt , Moments draws its energy from the contrast between the gently flowing inner forms and the geometrical external shape. The subtle design is characterized by the “soft-edge” rounded edges, which appear in all the “Moments” products.

From wash basins to shower partitions to the elegant chrome fittings, the result is a perfect combination of design and technology: an ultra-modern collection that allows you to assemble a fully integrated bathroom to maximize your comfort and enjoyment.

Moments Your temple of relaxation.

High quality materials, joined with a classic design, helps create a warm pleasing setting. The result?

A haven of tranquillity and relaxation for the body and soul. The wall mounted bidet and WC creates an illusion of space and gives the room an uncluttered look as well as making cleaning, sinfully easy.

Moments

Shower enclosure with soft-edge design, with possibility for right or left side opening, suitably complimented by the elegant chrome shower tap fittings. The radiator, available in many sizes, allows you to assemble a fully integrated bathroom.

118 Ideal Standard

Moments

Elegant and contemporary design that will let you display your creative flair. This bathtub, with its illuminated front panel, becomes the focal point of your bathroom. The diffused light setting the perfect atmosphere for unwinding and relaxing.

Moments

Extraordinary simple, the range gives a feeling of pure luxury. The detailed finishes of range unite with the curvaceous design and work perfectly with the accessories to create a harmonious washroom.

The side cupboards are distinctive and stylish and offer useful storage space. Various surface options are also available.

Moments

The wash basin, with its concealed overflow, has a pleasant visual harmony thanks to its flowing inner forms. The cupboard beneath replicates its shape, flowing to form one unit. The practical lotion dispenser and glass holder continue the curvaceous design.

Sadler

Wall mounted WC bowl and bidet complete with chromed accessories.
Hydro massage bathtub with rain jet system, wall spout and given shower.

140 Ideal Standard

Sadler The bathroom is performed with harmony.

Sadler line is characterized by its perfect combination between technology and aesthetics, materials and spaces, functionality and design. In Sadler each element harmonizes itself perfectly with the other to create an ideal environment for the body and the spirit. So, for example, the Whirlpool tub, with special water jets positioned on chrome bars completes itself with the integrated mixers, and the set of accessories with furniture and lamps. It is with this ambition that Ideal Standard works with the most important designers like Marc Sadler,

whose researches are articulated on the global functionality of water, going more and more further in the creation of matters and spaces. Fixtures and accessories are combined in a new and harmonic way, solution are studied with full particulars in terms of technology and aesthetics. At Ideal Standard you will find the widest choice of finishes, measures and styles in order to re-invent your bathroom. Welcome in Ideal Standard's bathroom, with the contemporary design of Marc Sadler.

San Remo

A new bathroom range that makes its mark all over the world.

The San Remo range has been created to be adapted to your bathroom area, whatever its size or style.

Clear-cut lines, uncluttered design and stylishness distinguish the San Remo line, permitting it to harmoniously complement your preferences!

San Remo R3151
95x52cm
Wash basin, 1 central tap hole, 2 semi punched holes

San Remo R3150
70x52cm
Wash basin, 1 central tap hole, 2 semi punched holes

San Remo R6631AA
Towel bar 86cm, chrome plated (for R3151)

San Remo R6630AA
Towel bar 64cm, chrome plated (for R3151, R3150)

San Remo E7400
Floor standing pedestal

San Remo E7492
Semi pedestal

San Remo R3154
80x50cm
Semi countertop wash basin,
1 central tap hole, 2 semi punched holes

San Remo R3155
65x50cm
Semi counter top wash basin,
1 central tap hole, 2 semi punched holes

San Remo E7400
Floor standing pedestal

San Remo E7492
Semi pedestal

San Remo R3170
55x41cm
Wash basin "Slim Line", 1 central tap hole

San Remo R3171
60x38cm
Wash basin "Slim Line", 1 central tap hole

San Remo R3172
60x44cm
Wash basin "Slim Line", 1 central tap hole

San Remo E7502
Semi pedestal for R3172, R3171, R3170

San Remo E7480
70x54cm
Wash basin, 1 central tap hole, 2 semi punched holes

San Remo E7470
65x52cm
Wash basin, 1 central tap hole, 2 semi punched holes

San Remo E7460
60x49cm
Wash basin, 1 central tap hole, 2 semi punched holes

San Remo E7450
55x45cm
Wash basin, 1 central tap hole, 2 semi punched holes

San Remo E7400
Floor standing pedestal

San Remo E7492
Semi pedestal

San Remo E7420
45x36cm
Hand wash basin, 1 central tap hole

San Remo E7502
Semi pedestal for E7420

San Remo R4101
56x48cm
Countertop wash basin, 1 central tap hole, 2 semi punched holes

Alto E7585
55cm
Semi countertop wash basin, single tap hole

San Remo R3493
48x35,5cm
Wall mounted WC "Slim Line" washdown horizontal outlet

San Remo R3915
Seat & cover with stainless steel hinges

San Remo R3421
47x36 cm
Floor standing single WC bowl washdown horizontal outlet

San Remo R3915
Seat & cover with stainless steel hinges

San Remo G6481
53x36cm
Wall mounted WC bowl washdown horizontal outlet

San Remo R3902
Solid plastic seat & cover with stainless steel hinges

Alto E7573
Back-to-wall WC bowl with horizontal outlet

Alto E7590
Alto seat & cover with stainless steel hinges

Associated products:
Panekta connector E3222 converts to P trap

Alto E3221
Converts to S trap or turned P trap

San Remo G6401
Close coupled bowl, horizontal outlet

San Remo G6402
Close coupled bowl, concealed bottom outlet

San Remo G6434
3/6lt bottom inlet dual flush tank

San Remo R3902
Solid plastic seat & cover with stainless steel hinges

San Remo G6461
Wall mounted close coupled bowl with horizontal outlet

San Remo G6434
3/6lt bottom inlet dual flush tank

San Remo R3902
Solid plastic seat & cover with stainless steel hinges

San Remo R3441
Floor standing close coupled WC bowl, vertical outlet

San Remo R3423
Floor standing close coupled WC bowl, horizontal outlet

San Remo R3600
3/6lt bottom inlet dual flush tank

San Remo R3601
3/6lt side inlet dual flush tank

San Remo R3657
Cistern 6lt bottom inlet push flush valve

San Remo R3901
Seat & cover with plastic hinges

San Remo R3902
Seat & cover with stainless steel hinges

San Remo G6413
Floor standing bidet bowl, central tap hole punched for over rim supply

San Remo G6483
Wall mounted bidet bowl, central tap hole punched for over rim supply

San Remo R3813
32x35x62cm
Urinal siphonic back inlet with supplied horizontal outlet

San Remo R3811
62x32cm
Urinal siphonic action top inlet

San Remo R3810
35x35x62cm
Urinal siphonic action concealed back inlet

San Remo A3641NU
Urinal connection flexible part

San Remo K8223.67
Siphon with horizontal outlet

San Remo K8224.01
Siphon with vertical bottom outlet

San Remo R2228
180x80cm
Acrylic bathtub, no tap hole punched. Available in Whirlpool system

San Remo R2229
160x75cm
Acrylic bathtub, no tap hole punched. Available in Whirlpool system

San Remo R2231
170x70cm
Acrylic bathtub, no tap hole punched. Available in Whirlpool system

San Remo R2100
170x75cm
Acrylic bathtub, no tap hole punched. Available in Whirlpool system

San Remo E7061AA
Chrome plated set bath handgrips for R2228, R2229, R2231, R2100

San Remo R2325
Front panel 160cm

San Remo R817075

170x75cm

Acrylic bathtub with chrome plated handles.

Available in Whirlpool system

San Remo P7000

Side panel 170cm

San Remo PR7000

Right end panel

San Remo PL7000

Left side panel

San Remo R2101

148x148cm

Corner acrylic bathtub, no tap hole punched.

Available in Whirlpool system

San Remo R2301

Front panel height 54cm

San Remo R2104

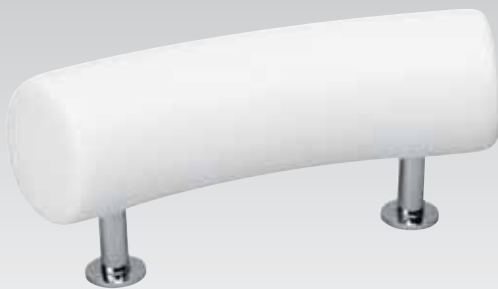

139x139cm

Corner acrylic bathtub, no tap hole punched.

Available in Whirlpool system

San Remo R2304

Front panel height 54cm

San Remo R6099AC

Head rest in white

San Remo R3503
70x70x20cm
Floor standing deep ceramic shower tray

San Remo R3508
80x80x20cm
Floor standing deep ceramic shower tray

San Remo R3509
70x70x11cm
Floor standing ceramic shower tray

San Remo R3510
80x80x11cm
Floor standing ceramic shower tray

San Remo R3511
90x90x11cm
Floor standing ceramic shower tray

San Remo R3512
70x70x11cm
Recessed ceramic shower tray

San Remo R3513
80x80x11cm
Recessed ceramic shower tray

San Remo R3514
90x90x11cm
Recessed ceramic shower tray

San Remo Special Needs.

Providing for the elderly and less-abled is essential in today's society. To cater for differing height requirements and to ensure products can be used correctly, basins, handrails must be capable of easy height adjustment. Rooms must also be flexible enabling products such as hinged rails to be removed so that the room can be used by able bodied people as well. Last but not least, all products should be easily accessible by the user.

San Remo G7470
Wash basin 61cm with elbow support

San Remo G7400
Floor pedestal

San Remo S6730
Safety straight hand grip 60cm, made of steel
and coated by polyamide material

San Remo G7470
Wash basin 61cm with elbow support

San Remo G7502
Small wall pedestal

San Remo R3916
Seat hinges

San Remo A1245
Lava mixer with extended lever handle and pop-up drain

San Remo S6912
Safety straight hand grip 60cm made of steel
and coated by polyamide material

Small+

Designing small pieces whilst retaining style and function is a great challenge for Ideal Standard. In this regard, the intelligent Small+ solution stands out as proof that although small in size, it retains all the flair and features expected of larger pieces. The designer, Franco Bertoli, finds inspiration in small places and by bringing excellent materials and original forms together, he manages to make them seem spacious!

Small+
Corner shower tray with laminated standing base and shower enclosure complete with two side panels and curved front door.

Small+
Wash basin on wall hung cabinet with door and two side open units.
Column shelved unit with drawer floor unit compliments the bathroom.

Small+
Wall mounted WC bowl and bidet join in one unit.
Mixer and roll paper holder have been incorporated in the porcelain.

Small+
Floor standing WC bowl and bidet, with 1 tap hole mixer Ceramix style.

Small+
Column cabinet with removable drawer and satinated door handle.

Tonic

Inspiration taken from the shape of the "rhombus".

The charm of the Tonic series comes from its progressive modern design, with dynamic flowing lines. The acrylic shower-trays and the bathroom accessories series adopt the same design approach, inspired by the diamond shape. The Tonic series was designed by Artefakt Studio, in collaboration with Mark Sadler, Head Art Director of Ideal Standard Europe.

Tonic
Wall mounted WC and bidet with IQ rectangular wash basin and mixer and Tonic accessories.

Tonic
IQ single lever mixer.

Tonic
Wash basin on central basin cabinet with twin towel holder and crystal soap dish holder.
Corner shower tray and enclosure complete with Tonic shower rod assembly.

TonicGuest

Tonic Guest has been designed with your needs in mind. If you have limited space, with Ideal Standard this is no problem. With the Tonic Guest range you can transform even the smallest bathroom to a very attractive and functional room.

Tonic Guest furniture makes the real difference. Small in size but functional with the ability to choose between three different basins all the accessories are secured simply on the sink or the mirror without damaging the wall or tiles.

Washpoint collection

Simplicity, choice and style.

The Washpoint collection, designed by Marc Sadler, offers simplicity, choice and style. The Washpoint range is highly versatile and offers exceptional value for a family bathroom with its practical lines and quality finishes. Washpoint has numerous options from single and double or countertop wash basins and floor or wall-mounted models from which you can choose to create your perfect bathroom.

The CERAMIX mixer fittings, also designed by Marc Sadler, provide the perfect solution that can be adapted to the endless combinations of porcelain.

270 Ideal Standard

White

Design by architect David Chipperfield. White is a comprehensive range of bathroom products designed with built-in flexibility to solve most bathroom problems. There are many different basins in the range, including pedestal, wall mounted, semi-countertop and vessel basins. The bath is a 170x80cm Idealcast bath with optional front and end panels. Also available are three wc's: wall mounted, close coupled and back-to-wall.

White ceramic fixtures are suitably complemented by the SILVER mixer and tap fittings. SILVER is a stunning and comprehensive range of chromium plated mixer taps for baths, basins and kitchens. Silver has a choice of single lever or dual control mixer taps. All mixers incorporate Ideal Standard's unique ceramic disc technology.

White
Floor standing close coupled WC bowl with cube wash basin and full standing pedestal.

White
Silver mounted basin mixer with 150mm spout, chrome plated, white cube 50cm wall mounted wash basin.

White
Floor standing back-to-wall WC bowl with semi counter basin.

White

Ideal Standard, world leader in sanitary and bathtubs, fully mindful of your needs and always selecting materials of premium quality designs, showers, wash basins and kitchen sinks, which meet even the most stringent requirements. Materials of excellent quality are used, such as acrylic sheets with 25-year guarantee or vitreous china.

Commercial Items. Quality and Selection by Ideal Standard.

Ideal Standard's specialist products provide unique solutions for installations in hotels, hospitals, schools and prisons as well as low cost housing.

Wash basins

Ideal Standard's wash basins and countertops are the perfect solution for every bathroom.

Four types of basins, all made of Ideal Standard's fine quality porcelain gives you the flexibility you need and helps you fulfill your requirements for the beauty pampering area of your bathroom.

- Free-standing basins for counters or furniture, whose outside surface remains visible.

- Vanitory type basins, with integrated porcelain surfaces on the sides, doubling also as a counter.
- Countertop basins, with only one rim remaining visible above the counter or furniture top.
- Under-counter basins, fully recessed underneath the counter or the furniture top.

308 Ideal Standard

Shower trays

The shower trays, offered by Ideal Standard, are available in different shapes and dimensions to suit any space requirement. The anti-slippery surfaces feature a variety of decorations to guarantee safety and elegance to your bathroom. Designed and manufactured using the same high quality materials and the latest technology.

Ideal Standard's shower trays are easy to clean and have a Showerseal option, (a watertight secondary seal hidden behind tiling), which puts an end to maintenance problems.

Sanura S6100
UR-G Sanura wall urinal 50cm

Sanura S6285
Urinal flexible connection part. Kit

Sanura S9275
Concealed steel hangers

Sanura S8850
1 1/2" plastic domed waste

Sanura S8915
1 1/2" plastic bottle trap with 75mm seat

Sanura S6120
Vitreous china division with screw and hanger

Sanura S6201
Mura auto cistern 9.0lt capacity, automatic syphon, petcock and supports

Sanura S6222
Polished stainless steel flushpipes, chrome plated clips

Auto cisterns

Mura vitreous china auto cisterns are designed in one piece with integral cover for easy cleaning and hygiene. Optional lid for access hole if required

Auto cistern S6202
Mura 13.7lt auto cistern with auto syphon, petcock and supports

Auto cistern S6204
Access lid

Options
S6200 4.5 litre
S6201 9.0 litre

Auto cisterns

Plastic urinal cistern. Regal is a slimline cistern for exposed installations

Auto cistern S6211

9.0 litre auto cistern & cover, auto syphon and petcock

Options

S6210 4.5 litre

S6212 13.6 litre

Auto cisterns

Concealed auto cistern suitable for fixing on front or back wall of duct

Auto cistern S6216

9.0 litre auto cistern & cover, auto syphon and petcock

Options

S6215 4.5 litre

S6217 13.6 litre

Flushpipes

Stainless steel flush pipes for bowl urinals. Available for surface or duct mounted cisterns

Flushpipe S6220MY

Sanura single flushpipe, exposed

Flushpipe S6221MY

Sanura range of 2 flushpipes, exposed

Flushpipe S6222MY

Sanura range of 3 flushpipes, exposed

Flushpipe S6223MY

Sanura range of 4 flushpipes, exposed

Flushpipe S6224MY

Sanura range of 5 flushpipes, exposed

Flushpipe S6224MY

Sanura range of 5 flushpipes, exposed

Flushpipe S6232MY

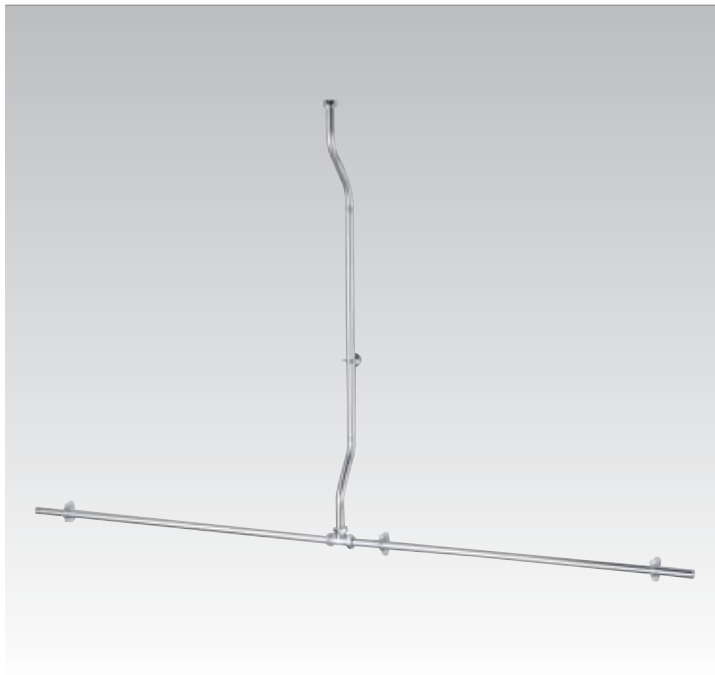

Flushpipe, exposed (single Sanura/Regal)

Flushpipe S6233MY

Flushpipe, exposed (2 persons Sanura/Regal)

Flushpipe S6234MY

Flushpipe, exposed (3 persons Sanura/Regal)

Flushpipe S6226NU
Sanura single flushpipe, concealed

Flushpipe S6227NU
Sanura, range of 2 flushpipes,
concealed

Flushpipe S6228NU
Sanura, range of 3 flushpipes,
concealed

Flushpipe S6229NU
Sanura, range of 4 flushpipes,
concealed

Flushpipe S6230NU
Sanura, range of 5 flushpipes,
concealed

Company Information

Ideal Standard is renowned for its well designed, reliable sanitary ware and is the largest manufacturer of bathroom equipment. In addition to its comprehensive range of ceramic products, Ideal Standard also manufactures acrylic baths, taps, showers and a wide range of equipment for specialised applications. These specialised products provide often unique solutions and a wide variety to contractors and installers for installations in hotels, hospitals, schools and prisons, as well as low cost and luxury housing. Ideal Standard's innovative water efficient and waterless designs mean that specifiers have a range of options for the most demanding projects.

Ideal Standard

Ideal Standard is acknowledged as being among the leaders in bathroom design and innovation. This has been proven on many occasions with Ideal Standard products often winning major design awards. Ideal Standard's commitment to combining creative design with the latest manufacturing technology has resulted in inspired brassware collections.

Ideal Standard's award - winning space efficient products combine practicality with intelligent design to provide solutions for modern high density housing, without sacrificing either quality or luxury.

American Standard

American Standard is the world's largest producer of bathroom and kitchen fixtures and fittings, as well as one of the world's largest producers of air conditioning and heating systems.

Manufacturing quality

ISO 9002

Ideal Standard has been assessed by Ceramic Industry Certification Scheme Limited and have been granted approval under the terms of the scheme for Supplier Quality Management Systems to BS EN ISO 9002. Approval relates to manufacture and supply of vitreous china sanitaryware, accessories, baths, shower trays, enclosures, panels and the supply of steel baths, brassware and associated bathroom products.

Product specification

Ideal Standard pursue a policy of continuing improvement in design and performance of their products. The right is, therefore, reserved to vary specification and colour ranges without notice. Whenever possible it is Ideal Standard's policy to comply with Standards specifications for the manufacture of products. In some instances, however, 100% compliance may detract from the overall finish of the item and so products may be made to conform as far as reasonably possible within design limitations.

Materials

Ideal Standard is committed to a continual programme of product assessment and appraisal to improve material quality and reduce environmental impact.

Vitreous China

Vitreous china conforms to BS 3402: 1969 (high grade ceramic ware used for sanitary appliances). It is made from a mixture of white burning clays and finely ground minerals which, after firing at high temperature and when unglazed, does not have a mean value of water absorption greater than 0.5% of the dry weight. This 99.5% vitreosity means that, even unglazed, it cannot be contaminated by bacteria and will remain hygienic. It is coated on all exposed surfaces with an impervious non-crazing vitreous glaze giving white or coloured finish. Vitreous china is stainproof, burnproof, rotproof, rustless, non-fading and is resistant to acids and alkalis. To produce vitreous china (and fireclay) a solution of slip is prepared. Slip is the term used in the trade to define casting clay. The ingredients for vitreous china casting slip are ball clay, china clay, sand, fluxing agent and water.

Fine Fireclay

Fine Fireclay is made from a mixture of ground Vitreous China and Fireclay and has the advantage of holding shape better, whilst manufactured. It is particularly suitable for products such as vanity basins where it is important to achieve a flat base, whilst keeping the finish associated with vitreous china.

Fireclay Idealcast™

Idealcast™ is a composite of resins and minerals, which is cast onto the reverse of a vacuum formed acrylic shell, producing a 'factory made' product with minimum wall thickness of 8mm.

Idealcast™ is very rigid, the most rigid of all synthetic bath materials. It is comparable with the solid feel most people associate with cast iron.

Idealcast™ is, also, tough surpassing the British Standards requirements for baths and bettering all other 'cast' polymer baths.

Idealform™

Idealform™ products are manufactured from cellcast acrylic sheet. The sheet is vacuum formed to produce the desired shape and then fully reinforced. The advantages of acrylic sheet are that it has low thermal conductivity, it is lightweight and it has a high gloss surface, which is easy to maintain.

Stainless steel

Under special order request, Ideal Standard offers a full range of stainless steel clinical equipment and sanitaryware, in conformance with Department of Health specification.

Enamelled steel

Sheet steel is pressed into the desired shape and then coated with layers of vitreous enamel, which is fired at high temperature. The enamel and steel bond during firing to give the enamel a glass-like high gloss finish, which is very durable and practical.

Injection moulding

WC seats and some cisterns are manufactured from high impact plastic. They are made using the latest injection moulding techniques.

Brassware

Taps and mixing valves are manufactured from well proven metals and modern plastic materials. They are designed to conform with Water Regulations giving adequate flow rates from traditional UK unvented systems, whilst being pressure rated to suit mains, combi and unvented supplies. Non-metallic materials coming into contact with potable water are chosen for their resistance to support of microbial growth. Fittings are coated in durable chrome plate, gold finishes or architectural polyester coatings.

Weights and sizes should be considered merely approximate .

Ideal Standard SA reserves the right to make any changes in its products, at any time without notice.
