Ref. 777000

Réf. : 777000 : straight type, for in-line connection. 7 sec

Réf. : 777030 : straight type, for in-line connection. 3 sec

Réf. : 778000 : angled, for concealed inlet. 7 sec

Réf. : 778030 : angled, for concealed inlet. 3 sec

» • We recommend to provide water waste neck tube, and wedge wall corner if necessary (see below).

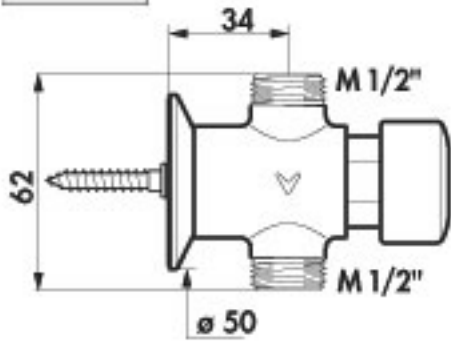

### FONCTIONING AND APPLICATION

- Opening by pressing the push button.
- Automatic 7 sec. delayed shut-off.
- Use: recommended for public and commercial places (public toilets, schools, camps, stadiums, sport centers...).

### PRODUCT ADVANTAGES

- **WATER SAVING** over 50%: automatic shut-off and regulated flow rate.
- **HIGH RESISTANCE TO VANDALISM**: especially designed to comply with intensive use in public places.
- **RELIABILITY**: unmatched endurance and scale, corrosion and foolproof mechanism. Self-cleaning hydraulic delay device.
- **COMFORT AND QUICK INSTALLATION**: no spatter thanks to adjustable flow rate from the front of the valve without cutting-off water nor removing the cartridge (DELABIE patented).
- **EASY MAINTENANCE**: Interchangeable mechanism cartridge, accessible without dismantling the valve.
- **10 YEARS WARRANTY**
