

baths

create rectangular bath screen

Create bath screens allow invigorating showers as well as luxurious bathing. The bath screen can be fitted individually or with the over bath shower door, these fasten together with a magnetic strip, to create an over bath enclosure.

The innovative double flap seal prevents splashes and deflects water back into the bath. Both screens fold neatly out of the way.

- Domestic and hotel use
- Optional over bath shower door
- Clear glass
- Magnetic seals
- Unhanded
- Inward and outward opening
