ACT Series

RECESSED CEILING TILE HEATER

SURFACE MOUNTED STOCKROOM HEATER

Introduction

Airbloc ACT Series is an electric heater that directs a down-flow of warm air from overhead, delivering immediate heat where required and rapidly creating a comfortable environment for staff and customers.

The ACT Series is designed to complement the Airbloc air curtain range to provide a cost-effective heating solution.

Features & Benefits

- Maximum mounting heights 3m to 3.5m
- Compact dimensions to fit shallow ceiling voids
- Immediate warmth
- Quiet operation
- Good aesthetic appearance
- Low maintenance

Model Range

- Surface mounted or recessed to replace a standard ceiling tile
- Available with three heating capacities of 3kW, 4.5kW and 6kW
- Available in a white finish with egg crate grilles to ensure the visual integrity of the interior retained

ACT Series Applications

- Restaurants
- Retail outlets
- Showrooms
- Stockrooms (surface mounted)
