

Open-close rotary actuator with emergency control function for 2 and 3-way ball valves

- Torque 15 Nm
- Nominal voltage AC 230 V
- Control: Open-close
- Auxiliary switch
- ARF230-S: Deenergised NC  
ARF230-S-O: Deenergised NO

**Technical data**

<b>Electrical data</b>	Nominal voltage	AC 230 V, 50/60 Hz	
	Power supply range	AC 198 ... 264 V	
	Power consumption	Spring return 6.5 W at nominal torque Holding position 2.5 W For wire sizing 11 VA	
	Auxiliary switch	2 x SPDT, 6 (3) A, AC 250 V II <input type="checkbox"/> Switching points: 10% $\leftarrow$ fixed, 28 ... 94% $\leftarrow$ adjustable	
	Connection	Motor Cable 1 m, 2 x 0.75 mm <sup>2</sup> Auxiliary switch Cable 1 m, 6 x 0.75 mm <sup>2</sup>	
	Parallel connection	Yes (Note the performance data supply!)	
	<b>Functional data</b>	Torque (nominal torque)	Motor Min. 15 Nm at nominal voltage Spring return Min. 15 Nm
Direction of rotation		ARF230-S Deenergised NC, ball valve closed (A – AB = 0%) ARF230-S-O Deenergised NO, ball valve open (A – AB = 100%)	
Manual override		With hand crank, can be fixed in any position	
Angle of rotation		95° $\leftarrow$	
Running time		Motor 150 s Spring return ~16 s at -20 ... 50°C / max. 60 s at -30°C	
Noise level		Motor Max. 45 dB (A) Spring return ~62 dB (A)	
Service life		Min. 60'000 emergency settings	
Position indication		Mechanical	
<b>Safety</b>		Protection class	II Totally insulated <input type="checkbox"/>
		Degree of protection	IP54
	EMC	CE according to 89/336/EEC	
	Low voltage directive	CE according to 73/23/EEC	
	Mode of operation	Type 1 (to EN 60730-1)	
	Rated impulse voltage	4 kV (to EN 60730-1)	
	Control pollution degree	3 (to EN 60730-1)	
	Ambient temperature range	-30 ... +50°C	
	Media temperature	+5 ... +100°C (in ball valve)	
	Non-operating temperature	-40 ... +80°C	
Ambient humidity range	95% r.H., non-condensating (to EN 60730-1)		
Maintenance	Maintenance-free		
<b>Dimensions / Weight</b>	Dimensions	See «Dimensions» on page 2	
	Weight	Approx. 3.0 kg (without ball valve)	

**Safety notes**

- The actuator has been designed for use in stationary heating, ventilation and air conditioning systems and is not allowed to be used outside the specified field of application, especially in aircraft or in any other airborne means of transport.
- **Caution: Power supply voltage !**
- It may only be installed by suitably trained personnel.  
All applicable legal or institutional installation regulations must be complied with.
- The device may only be opened at the manufacturer's site. It does not contain any parts that can be replaced or repaired by the user.
- The device contains electrical and electronic components and is not allowed to be disposed of as household refuse. All locally valid regulations and requirements must be observed.

## Product features

<b>Mode of operation</b>	The actuator moves the damper to its normal working position while tensioning the return spring at the same time. If the power supply is interrupted, the energy stored in the spring moves the damper back to its safe position.
<b>Simple direct mounting</b>	Straightforward direct mounting on the ball valve with only one screw. The mounting position in relation to the ball valve can be selected in 90° steps.
<b>Manual override</b>	The ball valve can be manually operated and fixed in any position using a hand crank. Unlocking is manual or automatic by applying the operating voltage.
<b>High functional reliability</b>	The actuator is overload-proof, requires no limit switches and automatically stops when the end stop is reached.
<b>Signalling</b>	The actuator has one adjustable auxiliary switch and one auxiliary switch with a fixed setting. This means angles of rotation of 10% or 28 ... 94% can be signalled.
<b>Combination valve actuators</b>	Refer to the valve documentation for suitable valves, their permitted media temperatures and closing pressures.

## Electrical installation

### Wiring diagrams

**Note**

- Caution: Power supply voltage !
- Parallel connection of other actuators possible. Note the performance data supply.

## Dimensions [mm]

### Dimensional diagrams

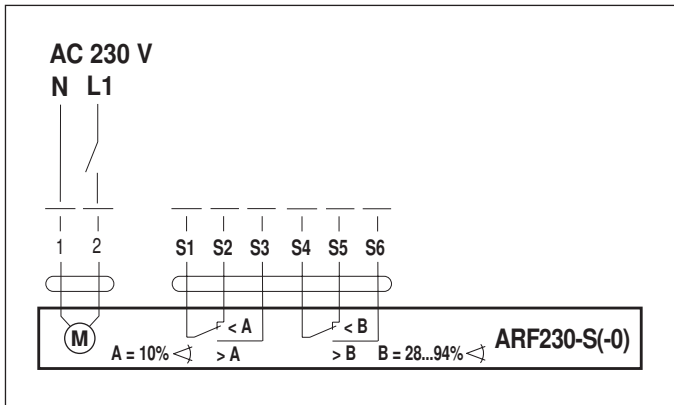

### Further documentations

- Complete overview of actuators for water solutions
- Data sheets for ball valves
- Installation instructions for actuators and/or ball valves
- Notes for project planning (hydraulic characteristic curves and circuits, installation regulations, commissioning, maintenance etc.)
