

Bespoke Orders. What we need from you.....

The Coram Premier range can be made to your bespoke requirements. Virtually any width, depth or height (up to 1830mm) can be achieved. Our bespoke service has certain requirements to fit your needs, for more information please see below.

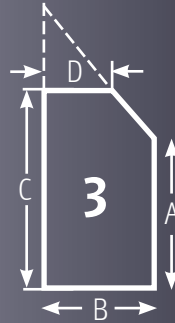

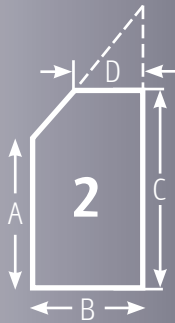

What we offer:

- Bespoke is available on Swing, Bi-Fold and Sliding Doors.
- Also available on Side Panels, Semi-Frameless Side Panels and Inline Panels.
- Polished Silver or White finish available.
- Choose either Plain or Satin Glass.
- Create virtually any width, depth or height (height must be within 1830mm).
- Angle cuts are only available on Swing Door.
- 4-6 week expected delivery (dependent on order and stock availability).

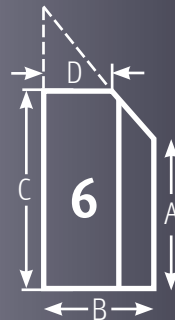

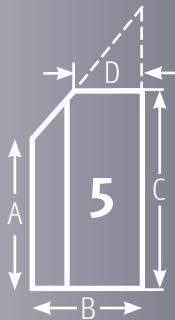

For all your bespoke orders we need some help to understand your requirements. Ideally send a drawing as per below outlining the following measurements:

For any bespoke door or side panel please provide a drawing with measurements as per items 1, 2 or 3. Please specify which side the hinge or wall is located.

For any bespoke door with an inline panel please provide a drawing with measurements as per items 4, 5 or 6. Please specify which side the hinge or wall is located.

For more info call bespoke on 01746 713437 or email: bespoke@coram.co.uk

CORAM

Wider Enclosures
Technical Information

Coram offers a range of products to make your Premier enclosure the perfect size.

Using either a Side Panel or Inline Panel, with a 'H' section, you can extend your Premier door and produce an enclosure to fit your specific needs. Coram can provide a range of sizes that will fit your installation without any compromise on design or quality.

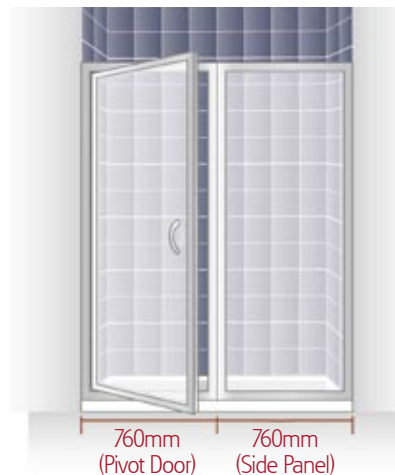

Inline Panel (PIL10 & PIL12)

Inline Panels are a 'short width' panel designed to extend a 760mm door's width to 1000mm or 1200mm. However, when used with a larger door or enclosure wider sizes are achievable (please see wider enclosure chart). Both the 1000mm and 1200mm panel are supplied with a 'H' section and bracket pack as standard in polished silver or white finish and can be purchased in Satin / Modesty glass finishes.

Side Panel (PSP)

As an alternative to an Inline panel a Side panel can be used to make an enclosure wider than 1200mm. Side panels are available in polished silver or white finish and come in either a 760, 800 or 900mm width, can also be purchased in Satin / Modesty glass finishes. An 'H' section would need to be purchased separately with some larger sizes also requiring a strengthening pack.

For more information please see the table which outlines the sizes that can be achieved with our Premier Door and panel options.

Premier Wider Enclosures Technical Information						
Door Size	Door Style	+1000 In-line Panel	+1200 In-line Panel	+760 Side Panel Inline	+800mm Side Panel Inline	+900mm Side Panel Inline
700mm	Bi-fold	900-1000	1100-1200	1390-1490	1425-1525	1525-1625*
760mm	Bi-Fold Corner Entry Pivot Door Swing Door	945-1045	1145-1245	1435-1535	1470-1570	1570-1670*
800mm	Bi-Fold Corner Entry Pivot Door Swing Door	980-1080	1180-1280	1470-1570	1505-1605	1605-1705*
900mm	Bi-Fold Corner Entry Pivot Door Swing Door	1080-1180	1280-1380	1570-1670*	1605-1705	1705-1805*
1000mm	Bi-Fold Sliding Door	1180-1280	1365-1465	1655-1755*	1690-1790*	1790-1890*
1200mm	Sliding Door	1380-1480	1565-1665*	1855-1955†	1890-1990†	1990-2090†

* Strengthening pack recommended for this size enclosure.
 † Size is achievable but may be too long for Strengthening Pack.

The 'H' Section (PHS)

Coram's 'H' section must be used in situations where a door and panel will be joined together. The 'H' section is supplied with all inline panels but must be purchased separately when using a side panel to produce a wider enclosure.

Strengthening Pack (PSP)

To add stability to a large enclosure a strengthening pack is required. This will help to secure the flex of the door / enclosure reducing the risk of any damage.

Coram's Inline & Side Panels are available with the following Premier doors*

- Pivot Door (PPI)
- Frameless Swing Door (PSW)
- Bi-Fold Door (PBF)
- Sliding Door (PSL)
- Corner Entry (PCE)

***Bespoke doors are also available, please see overleaf for more information on what we need for your bespoke order.**
