

## Procedure to change the 'E' clip on the Kitchen Taps.

Prise off the coloured Indice with a sharp blade of a knife

Unscrew the head screw.

Unscrew the valve cover. Using a small flat bladed screw driver carefully prise out the existing 'E' Clip using your hand to cover the valve and clip to prevent it from flying off.

Using the Pliers provided place the new stainless steel 'E' clip (Provided) steadying the clip with one hand.

Reassemble the tap.
