EVERYTHING IN BATHROOMS

Design, innovation, sustainability and wellbeing – the values of Roca

Roca

Roca Online

Thanks to our new online product catalogue and iPad application it is even easier for you to keep up-to-date with the latest new products from Roca.

The online product catalogue provides you with all the key information in one place, including technical drawings, images and other products in the same range.

www.uk.roca.com

Roca on your iPad

The iPad App takes the product catalogue one step further – access images, features, dimensions, finishes, brochures and manuals from anywhere at anytime, all available at your fingertips. You can also utilise the advanced search facilities to find products which are specifically suited to your needs.

Our brochure

As the leading global bathroom brand, we are committed to developing new innovations and technologies for all of our products so that you can enjoy the latest bathroom trends. Our close collaboration with the most prestigious architects and designers allows us to be at the forefront in creating bathroom spaces, offering you the most innovative and functional solutions. We are also committed to minimising the impact our products have on the environment by developing new technologies to offer the most advanced solutions in water and energy saving. Furthermore, the development of new materials allows us to develop products that

are more resistant, durable, easy to use and maintain. All of this means that we are able to put at your fingertips the latest trends in styles and technologies so that you can enjoy your bathroom space as much as possible.

Our brochure is divided into two sections. Take a look through the front section to get an idea of some of the different designs and styles that we offer. Then turn to the technical section at the back for further details on all of our products including dimensions and prices.

Our values

W+W (i£ 10, 148).

CleanRim The Gap (i£ 13, 148, 161).

Dama-N suite (i£ 156).

In-Tank Meridian (i£ 12, 148, 155).

Design and innovation

Investing resources allows us to introduce exciting new products to the market on an ongoing basis. Our recently launched **Dama-N** collection (see page 156) was a result of the Roca Design Centre. Our in-house designers often work closely with top designers and architects from around the world to create desirable, stylish solutions for the bathroom space. The Element collection (see page 18) for example was created in collaboration with British architect David Chipperfield.

A branch of the Roca Design Centre is our Innovation Lab, who focus their efforts on research and innovation. The first product to be launched from the Innovation Lab was our award-winning **W+W** (see

page 10). An eye-catching design makes it ideal for compact spaces, whilst its most innovative feature is undoubtedly the technology which allows water from the washbasin to be reused to fill the toilet cistern, a unique concept that we brought to reality.

Two new innovative WCs are our **In-Tank Meridian** (see page 12), which is the first wall-hung WC to have the cistern integrated within the pan, and **CleanRim The Gap** (see page 13) which, through the introduction of an efficient distributor at the back of the toilet, has allowed us to reduce the flush volume and also make this WC extremely hygienic and easy to clean.

Sustainability

We have spent more than 50 years developing and promoting technologies and initiatives that help conserve the environment. A commitment to the planet is a core part of our philosophy and the approach we take to our everyday work.

Products available include dual-flush WCs, low capacity baths in acrylic and steel, taps with flow restrictors and Eco Disc cartridges.

Many of these products are registered with the Water Label, meaning they have been independently verified as being water efficient.

Sustainable production processes

Ever since 2008, we have been developing the Eco-Roca Project, which has two core goals: a 25% cut in CO₂ emissions by 2014, when compared with our 2006 emissions, and to manage waste-free industrial processes via our Zero Waste Programme.

With regard to the first goal, reducing CO₂ emissions, over the course of the period from 2006 to 2010, we at Roca have managed, globally, to cut gas consumption by 14.9% and electricity consumption by 4.6%. This improvement means preventing the emission of 52,750 tonnes of CO₂ into the atmosphere. Compared with 1990, in 2010 Roca had reduced its specific consumption of gas per unit of production by 60%. This figure is highly significant, as gas consumption represents approximately 90% of the greenhouse gas emissions arising from production processes.

Turning to the second goal, the Zero Waste Programme to achieve industrial processes that produce no material waste, 75% of the plan has been complied with to date.

We Are Water Foundation

Our commitment to the people and communities worst affected by water shortages and their consequences led us to create the We Are Water Foundation, a non-profit-making organisation aligned with the UN's Millennium Development Goals (MDGs), through its Water, the source of life programme.

The We Are Water Foundation has two key goals:

The first is to raise awareness and promote debate –amongst the public and institutions alike–regarding the need to create a new culture of water that allows for the fair development and sustainable management of the world's water resources.

The second is to carry out actions of all kinds aimed at offsetting the negative effects of the lack of proper water resources. The Foundation's areas of action include work on infrastructures, education, health and research, all in the world's most deprived areas.

Wellbeing

Over the years Roca has contributed in a definitive way to the transformation of the bathroom space, which has become not only a functional place but also a place of experience and relaxation. Through the constant development of technology Roca has been able to adjust the bathroom to ensure that it meets the requirements of everyday modern living.

Vythos bath (111 106, 208).

The image shows the exterior of the Roca London Gallery at night. The building's facade is a striking, futuristic design with smooth, flowing, organic shapes in a metallic silver finish. The words "Roca London Gallery" are illuminated in white, sans-serif font on a dark, curved section of the wall. Below the main facade, a series of arched openings are visible, each supported by a thick, curved pillar. The ground in front of the building is paved with dark, rectangular tiles, and a thin, glowing white line runs along the base of the building's facade. The overall atmosphere is modern and sophisticated.

Roca
London Gallery

Roca London Gallery

A creation of Zaha Hadid Architects

Welcome to the Roca London Gallery, a space designed by the renowned Zaha Hadid Architects, where you can enjoy a unique visual and interactive experience with Roca, the leading global bathroom brand. Here design, innovation, sustainability and wellbeing prevail and this is where Roca, inspired by these values, presents its products to architects, designers, specifiers, retailers, and the public through a unique brand experience in the world of bathrooms. The introduction of this unique space is a source of pride for Roca, as it allows us to convey to the public the meaning of the brand, our history, and our most recent achievements.

Roca London Gallery / Product exhibition.

Roca London Gallery / Interactive touchscreens.

Roca London Gallery / Main entrance.

Roca London Gallery / Lounge Area and Look-Up Space.

Zaha Hadid Architects have incorporated Roca's established history and culture of innovation into the experience of the space. Rather than create a fixed showroom space solely for products, Zaha Hadid has developed a flexible space for Roca, where displays, a meeting room, library, multi-media wall, reception and video screens are dispersed so visitors feel they are in an active design centre; a research hub that is much more than just a showroom.

The concept for the Roca London Gallery begins with water in its many forms and phases. Water inspired the idea of creating a space that expresses our adaptability and openness to change and innovation. Water acts as the architectural theme, connecting all aspects of the Gallery. The displays and the areas around them have been inspired by the movement of water, creating a changeable space that is full of possibilities.

The Roca London Gallery occupies one floor and covers an area of 1,100m². The façade is a unique feature and gives the space an immediate identity. It incorporates a coherent blend of forms and contours which are used in an unexpected way to create a series of architectural cut outs, crevices, and openings in the space, allowing the interior to open out on to the plaza in front of the Gallery.

Inside, the white space of the main area is shaped by the continuous logic of the illuminated water drops that seamlessly connect the different areas. The array of glowing 'pods', the iconic element of the Gallery, build the spine of the central space that is further defined with its final spiral move, which leads to the knowledge, research and multi-media seating area next to the main reception. The innovative spatial concept of the unique environments is reflected in the use of dark grey concrete to contrast with the white central spine of the Gallery.

Our most emblematic products are displayed in a variety of areas and environments. Here the visitor can learn about the latest Roca products and collections, created by top national and international designers. One of the most eye-catching elements of these environments is the tiled floor. Composed exclusively of Roca ceramics, the floor is a mosaic of unique, individually designed and manufactured pieces which together create a striking visual effect.

On the wall opposite the meeting room is the “Rituals” projection, a series of images that show a variety of everyday human activities in the bathroom space. They arouse the curiosity of visitors and provide a captivating look at our daily rituals and routines.

Beyond the reception area, also inspired by aqueous and organic forms, the space opens out on to the Lounge Area and Look-Up Space. These two zones complement each other and provide an area where visitors can relax and be inspired at the end of their tour. Here the visitor also has online access to our entire range of product collections and solutions.

Zaha Hadid was awarded the Pritzker Architecture Prize in 2004 and is internationally known for both her theoretical and academic work. Each of her dynamic and innovative projects builds on over thirty years of revolutionary experimentation and research in the inter-related fields of urbanism, architecture and design. Her work transforms our vision of the future with new spatial concepts and bold, visionary forms.

The Roca Galleries around the world serve as a meeting place and arena for open dialogue, drawing together like-minded designers, architects and interior decorators from around the globe. Locations in Barcelona, Madrid, London and Lisbon provide a multidisciplinary platform for interchange, thereby constructing a world-wide network to identify, interpret, develop and share information on new trends in the field.

Zaha Hadid Architects in London, Borja, Lucía and Carlos Ferrater’s OAB architectural studio in Barcelona, Estudio Lamela in Madrid, and Ferruz Decoradors in Lisbon have brought this vision to life in the Roca Galleries that combine an engaging look and true representation of our values. Hence, the Roca Gallery sites are designed as flexible, functional places to show off the wide range of Roca products alongside a broad offering of socio-cultural activities.

Nowadays there is a clear trend towards open and interconnected spaces in the home. Your bathroom is a continuum of the rest of your home. In the following pages we present our current

BATHROOM SPACES TO

home and is therefore the perfect space for you to demonstrate your personality and lifestyle. We have worked alongside bathroom collections so that you can choose and enjoy the one that best suits your needs.

SUIT YOUR LIFESTYLE

W+W is the fusion of washbasin and W.C. in one single piece. Complemented by the Singles-Pro tap, it is the logical choice when sustainability and excellent design are key. At the forefront of design and innovation, W+W filters the water from the basin and reuses it to flush the W.C.

DESIGN PLUS

W+W

In-Tank Meridian (148, 155).

The unique In-Tank Meridian WC is a revolutionary bathroom fitting concept which incorporates the tank in its interior. It is the first WC to offer wall-hung and back-to-wall options which do not require a concealed cistern, facilitating ease of installation and creating an ideal solution for small spaces. Water enters the tank and then air is introduced by a revolutionary blower which has been developed in collaboration with Fluidmaster. This innovative blower pushes the water through the toilet rim to flush the WC.

IN-TANK MERIDIAN

CleanRim The Gap (id 148, 161).

CleanRim The Gap flushes from an efficient distributor at the back of the toilet which has allowed us to reduce the flush volume. It is also extremely hygienic and very easy to clean.

CLEANRIM THE GAP

FRONTALIS

Belén & Rafael Moneo

Frontalis, designed by Belén and Rafael Moneo, is inspired by nature. The organic and curved forms of each piece mimic the rhythmic and harmonious flow of water. The different products of the collection blend into the wall which supports them, creating a modular system which can be adapted to achieve a unique result in every situation.

In these compact, clean and simple pieces, a prism is the key shape. This is the Element suite by Roca, a true reflection of the creative spirit of its author, British architect David Chipperfield. The collection, with a clear geometrical stamp, goes for a contained look, using decidedly chunky pieces to convey a distinctive, radical style with great authority and presence. Maximum expression with minimum pieces.

VERANDA-N

Schmidt & Lackner

A dynamic and architectural collection with sharp lines complemented by soft and rounded organic curves. A recent redesign of the Veranda collection by Schmidt & Lackner led to the introduction of new basins and a coordinating furniture range. The sharp contrast between the white porcelain and the warm tones of the furniture creates a chic and minimal look. The units are available in a curved or square design with native white or native black patterned glass. With complementary accessories, bath and screen, shower tray and enclosure, there are endless combinations for your bathroom space.

Thesis brassware (111 196). Veranda-N basin (111 151).

MOAI

Moai brassware (111 197). Boi basin (111 186).

A new concept is the innovative control system in taps equipped with joystick technology. Their precise and simple operation thanks to the ergonomic joystick provides total control.

URBAN

SINGLE LEVER

The beauty of the hard-wearing chrome-plated finish of our taps is thanks to our advanced chrome-plating system which involves an electrolytic coating as well as our rigorous quality controls. You can be sure that a Roca tap will continue to shine over the years.

SINGLES-PRO

Singles-Pro brassware (11 197), Khroma basin (11 150).

M2-N

M2-N (iđ 198).

Logica-N (iđ 198).

Esmal (iđ 198).

LOGICA-N

ESMAL

SINGLE LEVER

At Roca we work every day to produce taps that contribute to the responsible use of natural resources and environmental protection. The eco disc cartridge in the majority of our taps helps to save water and energy by giving a level of resistance at 50% of the water flow.

MONODIN-N

Monodin-N brassware (1£ 200). Diverta basin (1£ 183).

Vectra (1£ 200).

VECTRA

TARGA

Targa brassware (i£ 199). Senso Square basin (i£ 159).

VICTORIA (V2)

Victoria (V2) (i£ 200).

L20 brassware (iđ 201).

L20 brassware (iđ 201). Senso Square 2.0 basin and furniture (iđ 174).

DUAL CONTROL

The wide range of Roca taps includes dual control models. Loft and Loft Elite are perhaps our most traditional looking taps but can be used in both traditional and contemporary bathroom spaces.

LOFT ELITE

Loft Elite (id 195).

LOFT

Loft (id 194).

Loft brassware (id 194). Happening basin (id 151).

PROGRESSIVE

Taps with progressive technology always start the flow with cold water and the passage of cold to hot is progressive as you turn the control. This means that water systems are only activated when hot water is required thereby saving energy.

SINGLES-PRO

Singles-Pro brassware (111 197). Urbi 2 basin (111 185). Furniture not available in the UK.

THERMOSTATIC

With thermostatic taps, you can enjoy the water for your shower or bath at the desired temperature and flow irrespective of variations in the water pressure. Thermostatic taps are one of the best options to complete a bathroom space. Just the right temperature without loss of time and water. Thanks to our QuickReaction® technology, Roca thermostatic taps allow you to enjoy the desired flow and temperature in less than 3 seconds. In addition, SafeTouch® prevents the chrome-plating from overheating, eliminating the risk of scalding. Furthermore, a security device stops the control knob from being turned past the 38°C point. These features make thermostatic taps ideal for all the family.

SHOWER ACCESSORIES

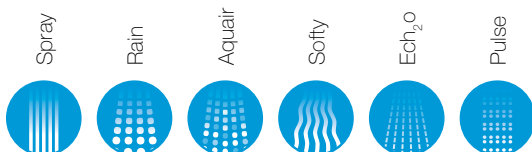

Our shower accessories have recently been updated with new products to give you even more choice when picking a handset or showerhead.

Next M3 handset (i f 203).

NEXT M3 HANDSET

Handset Functions

A variety of functions are available in our handset collection to achieve the desired effect, ranging from the relaxation provided by the Aquair function to the powerful jet of the Pulse function. You can even enjoy the new sensation Ech₂O, which saves fifty percent of the normal water flow, without affecting your experience.

For all of our shower accessories, see the technical specifications section at the back.

For latest prices and delivery to your door visit MyTub Ltd - www.mytub.co.uk - info@mytub.co.uk 0844 556 1818

VINTAGE XL

Vintage XL showerhead (i f 203).

To achieve maximum physical and mental well-being, Roca offers various products that allow you to look after yourself in many ways. Our range of baths, spas, hydromassage cabins and columns all have one aim in common: to pamper you. Relaxing, stimulating and toning effects are created through products designed to promote well-being from the therapeutic benefits of water.

WELLNESS BY ROCA

BATHS

Baths are designed to relax the body and mind. Their shapes and features allow you to leave your worries behind and enter an oasis of peace and well-being. Choose from a range of designs and sizes manufactured in acrylic, cast iron or steel as well as models with our new whirlpool systems which are intuitive to use and extremely functional.

Neos III column (id 216). Shower tray and enclosure not available in the UK.

NEOS

VICTORIA (V2)-T

Loft column (id 216).

LOFT

Shower columns offer functional and aesthetic solutions without forgetting the pleasures and feelings of wellbeing that a rain effect shower can bring. Roca columns are practical and easy to install in all types of environments.

Moai-T column (id 216). Axis shower screen (id 219). Shower tray not available in the UK.

MOAI-T

SHOWER SPACES

Roca offers you an innovative range of shower zones with a dynamic, fresh and edgy look. Functional and minimalist, make your daily habits more enjoyable with one of our exciting shower zones.

Transtube shower zone (£215). Khroma basin (£150). Furniture and mirror not available in the UK.

Transtube takes a fresh, innovative approach to showering. Its freestanding, tubular design features an enclosure with automatic door opening, an integral stainless steel shower column and a Styltech® shower tray. Its minimalist lines, advanced materials and MaxiClean coated glass together enhance the feeling of space.

TRANSTUBE

A new concept integrating the basin and shower space into a single product. Showerbasin includes a MaxiClean shower screen, basin with tap, Styltech® shower tray, shower column, storage and mirror with demister and light.

SHOWERBASIN

Showerbasin shower zone (11215).

Hide & Seat shower zone (id 215). Select accessories (id 190).

Hide & Seat shower zone (id 215).

Hide & Seat represents a new concept of multi-functional shower space where everything is always at hand and orderly. Your shower fuses with an integral seat which doubles up as a large storage container, which in turn houses an exterior trolley. Hide & Seat allows you to store away your toiletries and truly relax as everything is hidden and always in place.

HIDE & SEAT

Hide & Seat is a special order product.

Innovative WCs

W+W

893020001 Washbasin + WC complete with tap, waste, wall-hung frame and all fixings. Featuring water reuse technology **£2,593.31**

In-Tank Meridian

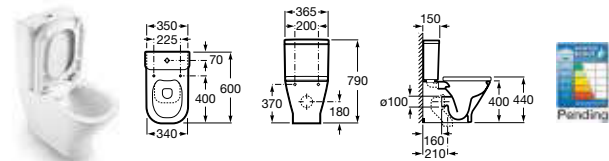

893302000 Wall-hung WC with integrated cistern and I-shaped support (for solid walls) **£958.50**

893301000 Wall-hung WC with integrated cistern and L-shaped support (for stud walls) **£1,150.00**

893303000 Back-to-wall WC with integrated cistern **£TBA**

The unique In-Tank Meridian WC is a revolutionary bathroom fitting concept which incorporates the tank in its interior – it is the first WC to offer wall-hung and back-to-wall options which do not require a concealed cistern, facilitating ease of installation and creating an ideal solution for small spaces. Water enters the tank and then air is introduced by a revolutionary blower which has been developed in collaboration with Fluidmaster. This innovative blower pushes water through the toilet rim to flush the WC.

CleanRim The Gap

34273700H Rimless WC pan – moulded back-to-wall **£176.06**

34173C000 Close-coupled cistern – 4/2 litres **£184.76**

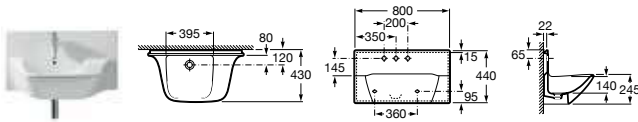

801732004 Soft-close seat **£103.25**

801730004 Seat **£76.08**

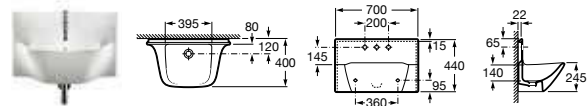

CleanRim The Gap flushes from an efficient distributor at the back of the toilet which has allowed us to reduce the flush volume. It is also extremely hygienic and very easy to clean.

In-Tank Meridian

893302000 Wall-hung WC with integrated cistern and I-shaped support (for solid walls) **£958.50**

893301000 Wall-hung WC with integrated cistern and L-shaped support (for stud walls) **£1,150.00**

893303000 Back-to-wall WC with integrated cistern **£TBA**

The unique In-Tank Meridian WC is a revolutionary bathroom fitting concept which incorporates the tank in its interior – it is the first WC to offer wall-hung and back-to-wall options which do not require a concealed cistern, facilitating ease of installation and creating an ideal solution for small spaces. Water enters the tank and then air is introduced by a revolutionary blower which has been developed in collaboration with Fluidmaster. This innovative blower pushes water through the toilet rim to flush the WC.

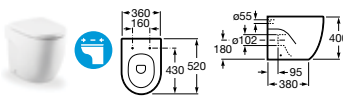

342247000 ECO WC pan – open back **£242.77**

Brassware

SofTurn®

As the cartridge is the heart of all taps, we have equipped our cartridges with SofTurn® technology so that you can achieve the highest levels of control, precision and comfort when selecting your desired water flow and temperature. The development of this exclusive technology has been possible because we are one of the few tap manufacturers that design, develop and manufacture our own cartridges.

Joystick-Turn®

A new concept is the innovative control system in taps equipped with joystick technology. This solution offers a different look to the more traditional single lever design but gives the same performance as our taps with SofTurn® technology.

Eco disc cartridge®

This exclusive technology developed by Roca helps to save water and energy. As you raise the tap handle, you reach a level of resistance at 50% of the water flow; by lifting beyond this bite-point, you can achieve full water flow. The cartridge also has a temperature limiter, set when installing the tap, to eliminate the risk of scalding. It can easily be altered after installation.

Conventional Cartridge

The conventional valve is operated by a handle, which is turned either clockwise or anti-clockwise. As the handle is turned this causes the rubber seal to move increasing or reducing the flow of water. These valves are known as 'full turn' as they can move 360°.

Prog-Turn®

Taps with progressive technology always start the flow with cold water and as you continually turn the control the flow changes to a mix of hot and cold meaning water systems are only activated when hot water is required thereby saving energy.

Lifetime Guarantee

In accordance with our commitment to create products for you of the highest quality that stand the test of time, we are delighted to offer a lifetime guarantee on all ceramic disc cartridges.

Flow Restrictors

The flow of water will not exceed the specified amount.

E-Tap®

A proximity detector starts the flow when your hands get close and stops the flow when they move away meaning water is only used when necessary. These taps are perfect for public areas.

EverShine®

The beauty of the hard-wearing chrome-plated finish of Roca taps is thanks to the innovative EverShine® chrome-plating system which involves an electrolytic coating. This guarantees that each tap will continue to shine over the years and also makes cleaning easier.

Cold Start

The flow always starts with cold water meaning water systems are only activated when hot water is required thereby saving energy.

Ceramic Disc Cartridge

The ceramic disc uses hard wearing ceramic discs that rotate against each other in order to open and close the water supply. When the disc is moved forward and back the water flow is controlled and when the disc is rotated left and right the temperature is controlled. The lifetime guarantee is on all ceramic disc cartridges.

Thermostatic

EverShine®

The beauty of the hard-wearing chrome-plated finish of Roca taps is thanks to the innovative EverShine® chrome-plating system which involves an electrolytic coating. This guarantees that each tap will continue to shine over the years and also makes cleaning easier.

SafeTouch®

The latest development in materials has allowed us to develop SafeTouch® technology which prevents the chrome-plating of our thermostatic taps from overheating. This eliminates the risk of scalding which is of great importance to all, particularly those with young children.

Security 38®

A security device (a red button) that stops the control knob from being turned past the 38°C point, Security 38® means wellness and comfort can be combined.

50% ECO

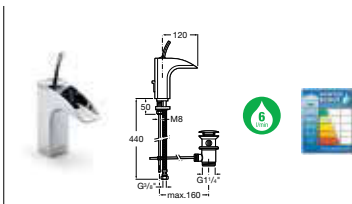

The Victoria (V2)-T thermostatic wall-mounted products come with a green button that instantly reduces the water flow by 50% when pressed.

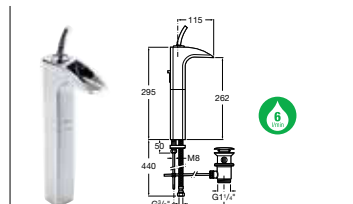

Quick Reaction®

Thanks to the development of the Quick Reaction® technology, our thermostatic taps allow you to enjoy the required water flow and temperature in less than 3 seconds. Furthermore, both remain constant irrespective of variations in the water pressure.

Spray

A powerful water spray, divided up into tiny droplets that stimulate the blood vessels and give the body a revitalising massage.

Rain

The fine water droplets are converted into tiny threads, giving the body a sensation of lightness and pleasure.

Aquair

Water and air are combined to give a soft, foamy sensation for a truly relaxing experience.

Softy

The water emerges gradually with a bubble-like effect, giving the body a soft, relaxing sensation.

Ech₂o

The multiple, fine water droplets produce a pleasant tingling sensation, in addition to ensuring water savings of 50%.

Pulse

Intermittent fine jets of parallel flowing water that give the body a revitalizing massage.

Pillars

520000000 Deck-mounting pillars for wall-mounted bath-shower mixers. Compatible with the following ranges: Brava-N, Esmal, Loft, Loft-T, Loft Elite, Logica-N, Moai, Moai-T, Monodin-N, Monojet-N, Prada-T, Targa, Targa-T, Victoria (V2), Victoria (V2)-T and Vectra **£45.06**

Rail Kit

D50010028 Standard 650mm rail kit with 5 function handset, 1.5m hose, clear soap dish, bracket and hose retaining clip **£57.00**

Systems

TONIC

The Tonic system offers water hydromassage regulated by means of a press button and the manual Venturi valve coupled to it. This system uses adjustable and orientable side jets to offer continuous water massage.

TONIC PREMIUM

The Tonic Premium system offers water hydromassage controlled by a digital LCD panel, with different massage programs such as continuous or pulse massage, and an electronic Venturi valve. The system uses side, back and foot jets that can be controlled with the digital panel. It has temperature and level sensors and preset programs.

TOTAL

The Total system offers air and water hydromassage controlled by a digital LCD panel, with various continuous or pulse massage programs, and a Venturi valve. The system has side, back and foot jets and air jets in the bottom of the bath, all adjustable by means of the digital panel. It also has various temperature and level sensors to ensure the best performance of the bath.

TOTAL PREMIUM

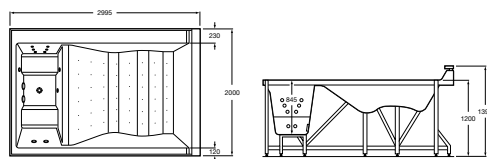

The Total Premium system offers our most complete hydromassage controlled by a touch-screen remote control. The system includes chromotherapy, a self-cleaning function and temperature maintenance by means of a heater.

For details on the Glow system, please contact us.

Design

We surround ourselves with the world's finest architects and designers, such as Chipperfield, Moneo, Schmidt & Lackner, Herzog & de Meuron... We want to offer a design that will make your bathroom a unique space.

Innovation

We have our own Innovation Lab where we experiment every day with new ideas, designs and materials, with the sole aim of enhancing your bathroom experience and providing solutions to make your everyday life more comfortable.

Sustainability

We love our planet and we prove it every day. This is why our products have advanced water- and energy-saving devices that permit a balanced and sustainable coexistence with our environment.

Roca

ROCA LOVES THE PLANET

Many of our products are registered with the Water Label Scheme, meaning they have been independently verified as being water efficient. Look out for the Water Label logo in the technical specifications section.

The Roca Guarantee

Every one of the products we sell complies with all specific European regulations. We offer you the finest product with the best guarantee. Our goal is your total satisfaction.

The quality of Roca products has been acknowledged throughout the world.
