

THE DECORATIVE RANGE

INTRODUCTION

Why should radiator valves be boring when they can look like this? Then specify the new Decorative Range of radiator valves from Myson.

The Decorative Range is both stylish and functional. They have been designed to complement the new 'feature' radiators like Myson 'Column' and 'Décor'.

The Decorative Range is beautifully finished in polished chrome and available as a handwheel, lockshield or thermostatically controlled valve. They not only look good, but will save you money on your heating bills!
