

Changing to high-efficiency pays for itself.

Noticeably sustainable.

Wilo Yonos or Stratos PICO saving customers more than £100 a year in energy costs.

Wilo-Yonos-PICO

The heating system of a single family house accounts for up to 78% of the energy consumption. The old uncontrolled heating pump is replaced with the new high-efficiency pump Wilo-Yonos or Stratos-PICO saving customers more than £88 a year in energy costs.

Code	Description	Length
